

Resources: Item ID groupings (Weapons and weapon parts)

Making quests can be tiring.

Making a quest that requires you to grab 50 item IDs can be *really* tiring.

I have, over the course of my ~200ish quests for Guiding light, had to get the item IDs for every single weapon and weapon attachment in the game, as well as some other stuff like medical items, armor vests, etc.

You don't want to know how many hours it's been

So, to help people break into making quests with large item id lists, I wanted to post (and keep up-to-date) this resource.

THIS IS NOT A RESOURCE FOR FINDING INDIVIDUAL IDs. If you are looking for a couple specific item ids, use this: <https://db.sp-tarkov.com/search>

What this is, instead, is meant to be a copy-paste list of bulk item ids to save you time. They will be in "itemid", " " format, so make sure you know if the specific part of the task you are making is ok with that format or if every item needs to be in a bracket (weaponModsIn/Exclusive lists will need every individual id in a bracket, you'll have to add that in yourself!).

Important note: You will see the following within the lists:

1."AssaultRifleList" (Really will be "XList" but using this as an example)

^This will not give you any errors, and was originally there within the code so I could ctrl+f and find it easier when re-using the list. You can include it or not, it's just there for ease of access.

2. "next2aretogether" (can be any number)

^If you ever see a "Next X are together", it means **The next X are the same item of different colors**. The most common example is an item that is available in black and FDE (Flat Dark Earth). They have separate item ids and should both be included, especially because a few color variants actually have different stats.

Oh, last thing: **I highly recommend you find the desired list with ctrl+F** aka the search function. Good luck scrolling all the way down if you are hoping for pistol grips

Editing this in afterwards: This is only going to be the weapons and weapon modification lists because the website is breaking down with all these lines of text. I will make a second one for other items when I collect more.

With that out of the way... Let's begin:

FIREARMS:

Assault rifles and Carbines (Separation is marked):
